Skills

- JavaScript | TypeScript | C | Node.js | Nest.js | MySQL | Node | Express | React | Python | PostgreSQL | NoSQL | MongoDB | Git
- AWS (Cognito, Lambda, S3) | Cloud Computing | CI/CD | Jira | Plane | Unit Testing | OOP | Kafka
- Microservices | Distributed Systems | Frontend | Backend | Full-Stack | Agile Methodologies | Scrum
- English, Hindi, Urdu – *All professional proficiency or above* | German, Japanese, Arabic, Russian

Experience

Software Engineer

CodeHaste

Bangalore, KA, IN

06/2024 - Present

- Developed microservices in **NestJS**, contributing to a scalable platform for client management.
- Integrated **AWS Cognito** for **user authentication** and **authorization**, improving security and reducing **login failures** by **30%**.
- Led the development of E2E product, from identifying system requirements and partner dependencies to workload balancing, software implementation, engineering, testing, and configuring metrics, alarms, monitors, and dashboards.
- Enriched system metrics by integrating the platforms with telemetry; facilitated in-depth logging by correlating APIs with vector contexts.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews, load/stress testing, unit/integration/e2e testing.
- Implemented unit and integration tests using Jest, achieving 95% test coverage for key modules.

Software Development Engineer, Intern

Zluri Technologies

Bangalore, KA, IN

08/2023 - 03/2024

- Engineered backend features for **high-traffic applications** (Monday.com, Jumploud, Azure, JFrog, Gitbook), improving system functionality and user experience.
- Debugged and resolved technical issues, reducing system **downtime by 15%**.
- Implemented data validation mechanisms, enhancing **web application reliability and security**.
- Optimized code, reducing **latency by 20%** and improving resource utilization.

Backend Developer, Intern

BTrees Technologies

Bijapur, KA, IN

11/2022 - 03/2023

- Led a team of **3 developers** to build a dynamic web application for an educational institution, enhancing **user engagement by 30%**.
- Reduced page load time by 40%, improving overall application performance.
- Streamlined business processes, boosting **customer satisfaction by 20%**.
- Achieved a **95% on-time delivery rate**, maintaining 100% client satisfaction.

Education

Bachelor of Engineering

Visvesvaraiah Technological University

Bijapur, KA, IN

09/2019 - 06/2023

- Major in Computer Science and Engineering

Projects

- **BLOODBANKMANAGEMENTSYSTEM**: Developed a web-based system using PHP and MySQL to streamline blood donation and inventory management for healthcare organizations. (07/2022)
- **SELF DRIVING CAR SIMULATION**: Built an autonomous car model using JavaScript and Artificial Neural Networks (ANN) to simulate real-time decision-making and navigation. (03/2023)
- **DATA EXTRACTION AND ANALYSIS FRAMEWORK**: Designed a framework for extracting and analyzing data from Android smartphones, enabling insights through automated processing. (05/2023)

Mentorship

- **Lead Student Coordinator**: Organized and led welfare initiatives for a team of 6 student coordinators, collaborating with university faculty to launch mental health awareness programs that reached over 500 students while supervising support services to ensure access to counseling and academic assistance. (11/2022 - 03/2023)

Others

- **SCRUM Master**: Facilitated Agile ceremonies, collaborated with product owners to align the backlog with business goals, removed team impediments to ensure timely delivery, and drove continuous improvement through feedback and process optimizations. (03/2013)
- **Certificate of English Language Proficiency C1**: The second highest-level certificate of English proficiency (30% Pass Rate) (01/2024)
